May 2011

## Greetings from the President,

This is going to be a small message. The weather has been a hit or miss out at the field, for me and probably the same for all of you. It's either been bad weather or I've gone out to fly and there is nobody out there. I tend to go out on Saturday mornings. The water is still flowing in, it doesn't seem as bad as it was on the runway and maybe the warmer weather that is to come will help dry it out. As soon as the water stops we will have a work day at the field. If there is anything that you see that needs to be fixed or taken care of please notify me .So my friends take care and keep putting them in the air.

Steven

## A Day Flying

Some of us decided to go out to a different flying site for the day. It was a bright and sunny day with a lot of wind. Here are a few photos of that day.
